I am a dedicated semi-professional main support, fluent in English, and motivated to reach the very top and push myself to my limits. I pride myself in being an anchor for every team that I have created or joined, always being able to keep improving and communicating with the team no matter what situation we're in. Being a team captain is a natural position for me and I enjoy working with the team during and between games.

I consider myself a good leader but I'm also very much able to take a step back and let others take control where needed. My drive to improve also makes me very coachable: I'm always happy to receive any feedback, and immediately adapt my playstyle or calling when needed.
